

The Cruellest Years

(Win the war & Keep people happy & Keep people alive & Not too much inflation)

Factories

Military Factory

- Military Factory product 1 weapon per turn

Industrial Factory

- Produces 1 daily necessities per turn

Weapon

- weapon unit + population unit can be made into planes, boats, soldiers, tanks, cannons, special forces
- Different military units have different cost and time

Military Unit	Weapon	Population	Turn	Blood	Range	Attack	Speed / fee
Militia	0	1	1	1/3/5	0/1	1/1/2	1 - 0
Infantry	1	1	1	1/2/3	1/1/2	1/2/3	2 - 1/2/3
Mechanized Infantry	2	1	1	1/2/3	1/2	1/2/3	3 - 1/2/3
Cannon	2	2	1	1/2/3	2/2/3	2/3/4	1 - 1/2/3
Light Tank	3	1	1	2/3/5	2/2/3	2/3/4	2/3 - 2/3/4
Heavy Tank	4	1	2	3/4/6	2/2/3	2/3/4	2 - 3/5/7
Light Boat	1	1	1	1/2/3	1/1/2	1/2/3	2 - 2/3/4
Heavy Boat	2	2	1	2/3/5	1/1/2	1/2/3	2 - 3/5/7
Aircraft Carrier	3	3	2	5/9/13	/	/	2 - 5/9/13
Light Plane	2	1	1	1/2/3	3/4/5	1/2/3	3 - 3/5/7
Heavy Plane	3	1	2	2/3/5	3/4/5	1/2/3	3 - 3/5/7

Bomber	5	1	3	3/4/5	2/3/4	2/3/4	2 - 5/7/9
Anti-Aircraft Artillery	1	1	1	1/2/3	1/2/3	1/2/3	1 - 2/4/6

*combination ends actions

*Boats carrier same amount of troops as their fee

*Only planes and Anti-Aircraft Artilleries could hit planes

Simpler Version

- Could stack up to 3, Blood and Attack stacks, other doesn't

Military Unit	Weapon	Population	Turn	Blood	Range	Attack	Speed	fee
Militia	0	1	1	1	1	1	1	0
Infantry	1	1	1	1	1	1	2	1
Mechanized Infantry	2	1	1	1	1	1	3	2
Cannon	2	2	1	1	2	2	1	2
Light Tank	3	1	1	2	2	2	2	3
Heavy Tank	4	1	2	3	2	2	2	4
Light Boat	1	1	1	1	1	1	2	2
Heavy Boat	2	2	1	1	1	1	2	3
Aircraft Carrier	3	3	3	6	/	/	2	6
Light Plane	2	1	1	1	3	1	3	3
Heavy Plane	3	1	2	2	3	1	3	3
Bomber	5	1	3	3	2	2	2	5
Anti-Aircraft Artillery	2	1	1	1	2	2	1	3

*combination ends actions

*Boats carrier same amount of troops as their fee

*Only planes and Anti-Aircraft Artilleries could hit planes

Daily necessities

- Necessary to maintain population happiness

1 unit Daily Necessity is needed per million people

Population happiness

- 70% -
- 50% -
- 20% - +1 turn for producing unites
- 0% - Revolution
- When money goes to zero force inflation back to x points

10% population happiness decreases by running out of money / population

Turn

- 1 turn is 1 month

Time Range

- Start: Italy Invade Ethiopia
- 1935 - 10
- End: Japan Surrender
- 1945 - 9

Population

- 1 unit is 1 million people
- based on historical data, have natural growth / decrease based on historical trend
- Examples:

Soviet	Germany	United States	China	Italy	Japan	England	France
--------	---------	---------------	-------	-------	-------	---------	--------

35 + 3	18 + 2	16 + 1.5	15 + 2	5 + 0.5	6 + 0.5	6 + 0.5	5 + 0.5
--------	--------	----------	--------	---------	---------	---------	---------

Core 8 countries as examples -

1 - Soviet, 2 - Germany, 3 - United States, 4 - China, 5 - Italy, 6 - Japan, 7 - England, 8 - France

Other playable countries/powers:

1 - Northern Europe, 2 - Poland, 3 - Ethiopia, 4 - South Africa, 5 - Brazil, 6 - Mexico, 7 - Canada

8 - Australia, 9 - Yugoslavia, 10 - British India, 11 - Finland, 12 - Romania, 13 - Greece , 14 -

Iran, 15 - Saudi Arabia, 16 - Hungary, 17 - Romania, 18 - Turkey, 19 - Spain, 20 - Netherlands

Treasure

- based on historical data, have natural growth / decrease based on historical trend
- Could add more money but would increase inflation

Military Units

- Amount of units stacked together would be cardboard circles below unit figure

Countries / Powers

- Countries / Powers have leader ability, unique unit, and 1 unique trait

Historical Events

- Events triggered when time is reached

Idea 1 - Candidate Event

What historical event, period, or story are you considering?

- World War II

What is the central conflict or tension?

- Central Conflict - growing imperialism, colonialism, nationalism created conflicts of land and money between countries in the world

Who are the major players - people, groups, or factions? Include winners, losers, and those affected but not directly involved.

- Winners - Allies - United States, Soviet Union, France, England, China, etc
- Losers - Axis - Germany, Italy, Japan, etc
- Others affected - other countries (especially european and asian countries)

What was at stake? What did people stand to win or lose?

- Stake was more land, more money, and more power for the leaders

Is there one moment where a different decision could have changed everything?

- German-Soviet Nonaggression Pact
-
- Germany Invades the Soviet Union
-
- Japan Attacks Pearl Harbor
-

Why would the event work?

- Works because it could teach players to understand effects of their potential actions could bring, and there are too many factors in the game that would make every game different

What could go wrong?

- How to tell what the axis did that was extremely brutal

Ethical to be a board game?

- The event is ethical to use as long as we are taking a comprehensive, educational approach to correctly learn from history's mistakes and avoid them in the future.
